Press Release

Rasco Industries, Inc announces a new product now available: The Bug Blocker® Expanded Metal Overhead Loading Dock Door.

FOR IMMEDIATE RELEASE

LORETTO MN, April 5th, 2010: Rasco Industries, Inc. has developed a new product; The Bug Blocker® Expanded Metal Overhead Loading Dock Door. Serious Security for your loading docks. Tough Expanded Metal keeps out unwanted persons, birds, pests, and rodents while providing accessibility to your employees. Listening to the needs of the manufacturing industry, this new product helps comply with AIB, ASI, FSIS, USDA, IPM, SQF 1000, and Homeland Security programs. Long lasting and cost-effective way to add Ventilation, Pest Control and Security for your loading dock doors. Easy clean with pressurized air or water. Stainless steel mesh meets federal specifications STD- A- A- 1037B. 20 gauge 304 stainless steel. Add .011" 30 x 30 mesh for insect control. Can be motor operated. Retro fits to your existing door. Custom made to your specifications.
